RELEASE

This document is a Release (“Release”) by the entity identified in the signature block below (“Counterparty”) in favor of Midcontinent Independent System Operator, Inc. (“MISO”) and Midwest Renewable Energy Tracking Systems, Inc. (“M-RETS”).

Recitals

WHEREAS, MISO has entered into a Services Agreement (the “Agreement”) with M-RETS to provide generator-specific information to supply one or more generation resource tracking systems (the “Systems”);

WHEREAS, MISO may only provide information to M-RETS as required pursuant to the Agreement for each Counterparty who has executed a release in the form hereof;

WHEREAS, Counterparty is a Market Participant, as that term is defined in MISO's Open Access Transmission and Energy Markets Tariff accepted by the Federal Energy Regulatory Commission, who desires MISO to release to M-RETS information in MISO's market settlement system on energy injections for the generating units associated with Counterparty by MISO, and Counterparty's consent is required prior to disclosure by MISO of such information; and

WHEREAS, Counterparty agrees to consent to such disclosure and to grant MISO permission to disclose the applicable generator-specific information to M-RETS.

NOW, THEREFORE, the parties agree as follows:

1. Disclosure of Generator Data

Counterparty hereby irrevocably and absolutely consents to and authorizes MISO to provide M-RETS, pursuant to the terms of the Agreement, all of the Counterparty's energy injection data that is contained in MISO's market settlement system, except for (1) generators that do not go through a control area settlements process, and (2) customer site distributed generators. Counterparty also agrees to the inclusion of its name and specific generator name or names being listed as an exhibit to the Agreement, with the express understanding that such exhibit may also be posted on MISO's website.

2. Release

Counterparty hereby releases, discharges, and hold harmless MISO (including its officers, employees, agents, representatives, successors, assigns, and anyone authorized by MISO) and M-RETS (including its officers, employees, agents, representatives, successors, assigns, and anyone authorized by M-RETS) from any and all claims and demands arising out of or in connection with

the use, reuse, publication, republication, and editing of energy injection data provided to M-RETS by MISO pursuant to this Release.

If the foregoing correctly sets forth the understanding and agreement among MISO, M-RETS and Counterparty, and Counterparty expressly consents to and authorizes the disclosure by MISO to M-RETS, and their respective affiliates, attorneys, advisors and other representatives, of the Counterparty's energy injection data solely for the purposes described herein, please so indicate in the space provided for that purpose below, whereupon this Release shall constitute a binding agreement among MISO, M-RETS and Counterparty as of the date that this Release is signed and returned to MISO.

By signing below, Counterparty acknowledges and represents that Counterparty has read, and understands the meaning of, this Release.
